

Are you ready to say “WE’RE IN!” to prevent HPV cancer?

If your organization is committed to increasing HPV vaccination rates as a means to reduce HPV cancer, then this symbol is for you! Can your organization answer **YES** to any of these questions?

1. Does your organization support on-time HPV vaccination for boys and girls?
2. Does your organization work to prevent cancer for this and future generations of children?
3. Is your organization ready to publicly support and promote HPV cancer prevention to your members, supporters and stakeholders?

If you answered **YES** to any of these questions, you’re ready to say, **“We’re In!” to prevent HPV cancer!**

To access English and Spanish versions of the **“We’re In!”** symbol in a variety of formats, along with a “Quick Action Guide” to get your organization started, visit <https://www.surveymonkey.com/r/WereInAgreement>
